Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the logger must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 – 4, 6 – 15 and 32 – 35, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 5,901,209 (Tannenbaum et al.).

With respect to claims 1 - 4, 6 – 15, and 32 – 34, such is clearly taught by Tannenbaum et al. at Col. 2, lines 34 – 67, Col. 3, lines 8 – 10, Col. 11, lines 12 – 16, Col. 12, lines 6 – 36 and Col. 12, lines 42 - 61.

With respect to claim 35, note that such a limitation is inherent. See also call management system 109.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tannenbaum et al.

Though Tannenbaum et al. do not explicitly teach displaying a choice of alias IDs to the first device, such would have been obvious when one considers the citing by Tannenbaum et al. of the use of the Internet, Internet phones, Radish voice view and ADSI screen technologies.

Claim 5 is further rejected under 35 U.S.C. 103(a) as being unpatentable over Tannenbaum et al. in view of U.S. Patent No. 5,864,612 (Strauss et al.)

Tannenbaum et al teach the claimed device except for explicitly teaching displaying a choice of alias IDs to the first device. However, Strauss et al. teach that such is old in the art. See Col.1, lines 50 – 63. It would have been obvious to one of ordinary skill in the art to have provided the Tannenbaum et al. method with such a method of displaying a choice of alias IDs to the first device, as such would make the device more convenient to a user.

Response to Arguments

Applicant's arguments with respect to claims 1 – 15 and 32 - 35 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S. Patent No. 6,449,351 (Moss et al.) - note the claims; and

U.S. Patent No. 6,343,120 (Rhodes) – note Summary of Invention.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
